

HG 2320 ESD

Electrostatic Discharge Heat Gun

Technical Specifications

Voltage: 120 VAC / 60 Hz
Power: 1600 watts
Amps: 13.3

Surface Conductivity: 10⁴ ohms
Airflow Rate: 3.6 - 17.6 cfm. (continuously variable)
Stages: 2 (continuously variable)

Power Cord: Industrial grade rubber, length: 6 ft
Motor: Brush motor
Heating Element: Cereamic heating element

Motor Lifetime: 1000 hours
Accessories: Use of standard accessories
Temperature: 120-1200 ° F
Net Weight: 2.19 lbs
Dimensions: 9.96" x 3.41" x 7.87"
 (L x W x D)

Single Sell Pack: Dimensions: 10.20" x 3.54" x 9.33"
 Weight: 2.60 lbs

Features: Higher durability (+20%), optimized weight balance, LCD-Display, 4 settings programmable, heat build-up warning, hanging ring, easily replaceable power cord, residual heat indicator, optional temperature scanner and fine dist filter

Warranty: 1 year

RoHS Compliant

ISO 9001: 2015
14001: 2015
