Dial Test Indicator

To ensure operator safety, use this instrument in conformance with the directions and specifications given in this User's Manual. Non-conformance to the instructions may compromise safety.

Do not commit an act which could, directly or indirectly, violate any law or regulation of Japan, your country, or any other international treaty, relating to the export or re-export of any commodities.

Be sure to perform reference point adjustment by following points to notice below.

- Do not perform the adjustment at sites where the temperature will change abruptly. Thermally stabilize the instrument sufficiently at room temperature.
 - Wipe oil and dust off the both contact point and master gage using a gauze or chamois skin.
 - Perform reference point setting and measurement in the same posture of the product.
 - Use a master gage like a setting standard which is periodically calibrated.
- After use, take corrosion prevention measures. Corrosion can cause the caliper to malfunction.
