

Portable Multi-Channel Data Recorder DAS240-BAT Series

The DAS240-BAT series measures and records parameters commonly found in process applications including voltage, temperature, current, resistance, frequency and pulse. It includes 20 universal analog channels with convenient screw input terminals that can be expanded up to 200 channels. This recorder was developed by B&K Precision's subsidiary Sefram in France, which specializes in the design and manufacture of data acquisition instruments, field strength meters and other test and measurement instruments.

Measurement results can be viewed graphically and numerically on a IO-inch color touchscreen and saved to internal memory or an external USB memory stick. Icon-driven menus make the instrument easy to navigate. The free DasLab Windows PC software allows users to remotely control and configure the recorder, transfer logging results and configuration files, and view live data in graphical or numerical format on the PC.

The data recorder features 32 GB of solid-state memory for data logging over extended periods. The internal battery provides back-up in the event of power loss (-BAT).

Main applications

- Temperature logging with thermocouples and platinum resistance temperature sensors
- Voltage measurements down to ± 0.5 mV range
- 4-20 mA current loop measurements
- Frequency, pulse totalization and pulse rotation measurements, which can be expressed in RPM (rotations per minute)

Expandable 20-channel analog modules

Features and benefits:

- Wide IO" touchscreen TFT display
- Extended battery life of up to 15 hours (-BAT)
- 20 universal analog input channels, expandable to 200 channels
- Versatile temperature measurements supporting thermocouples and PtI00 / PtI000 temperature sensors
- Measure voltage to ±100 V, resistance to 10 kΩ and current (with optional shunt input-terminal block)
- I6 bit vertical resolution
- Recording interval (sampling rate) up to I ms
- 12 logic input/output channels
- 4 timing logic input channels for pulse count, frequency and PWM measurements
- 4 alarm outputs
- 32 GB internal solid state memory
- WiFi monitoring and control (standard USB WiFi dongle required)
- 2 USB Host ports and I LAN interface
- Free DasLab operating software
- Virtual Networking Computing (VNC) capability for replicating the instrument's front panel interface on a PC

Multi-channel data recorder DAS240-BAT Series

The tools you need

Expandable up to 200 analog channels

The DAS240-BAT series provides a flexible and scalable analog channel concept. Each unit is supplied with one 20-channel analog module and 20 screw input terminal blocks. By daisy-chaining additional modules, the total number of channels can be incremented by 20 to a maximum of 200 channels (10 modules). These modules can be pre-wired to the UUT and stationary in multiple locations while the instrument is moved to each location for recording. This helps with wire management and setup time.

The 50 Ω shunt can be used on any channel of the recorder to accurately measure, display, and record the output from 4 to 20 mA current loop sensors.

Virtual Network Computing (VNC) capability

The recorder's built-in VNC capability, based on the Remote Frame Buffer protocol (RFB), provides a graphical desktop sharing system to remotely control the instrument from another computer. VNC is platform independent and provides a means to control all functions of the instrument through a graphical interface replicating the instrument's front panel, using a mouse and keyboard.

DasLab Software

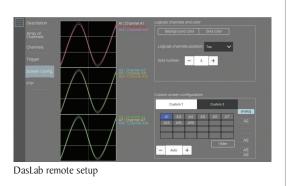

DasLab is a license-free Windows compatible software that can be downloaded from www.bkprecision.com. The software controls the recorder through the LAN or WiFi interface and provides the following features:

- Channel and trigger configuration
- Display live measurement results in graphical or numerical format
- File management, file upload and download of data recordings, screen captures and configuration files

Specifications

	Analog Channels	\$				
Analog Input Channels	20 standard, expandable to 200 with optional 20-channel modules					
DC Voltage						
Ranges	± (0.5, 1, 2.5, 5, 10, 25, 50, 100) mV ± (0.5, 1, 2.5, 5, 10, 25, 50, 100) V					
Maximum input Voltage	100 V DC					
Accuracy	0.1% of the full scale $\pm 10 \ \mu V$					
Temperature with Thermo	couples					
	J	-210 °C to 1200 °C				
	К	-250 °C to 1370 °C				
	Т	-200 °C to 400 °C				
Sensors Range by	S	-50 °C to 1760 °C				
Type (Cold junction	В	200 °C to 1820 °C				
compensation: ±0.5 °C)	E	-250 °C to 1000 °C				
	N	-250 °C to 1300 °C				
	С	0 °C to 2320 °C				
	L	-200 °C to 900 °C				
Temperature with Pt100 and Pt1000						
Current	I mA (PtI00), I00 μA (PtI000)					
Range	-200 °C to 850 °C					
Measurements	2 and 3 wires					
Accuracy (at 20 °C)	0.3 °C ±0.1% of reading					
Componented Desister	2 wires	$30 \ \Omega$ max.				
Compensated Resistance	3 wires	50 Ω max.				
Resistance						
Ranges	I k Ω and IO k Ω					
Accuracy	I Ω (range I k Ω) and IO Ω (range I0 k Ω)					

Logic Channels					
Logic Input/Output					
Number of Channels	12				
Maximum Permitted Voltage	24 V Cat I				
Input Impedance	4.7 kΩ				
Sampling Rate	I ms max.				
Timing Input					
Number of Channels	4 (KI to K4)				
Maximum Permitted Voltage	24 V Cat I				
Input impedance	4.7 kΩ				
Sampling Rate	I ms max.				
Pulse Counter	0 to 10 Million, accuracy 0.1%				
Frequency Measurement	I Hz to I0 kHz, accuracy 0.1%				
PWM Measurement	100 Hz to 2 kHz, accuracy 0.1%				
Alarm Output					
Number of Channels	4 Alarms (A, B, C, D)				
Output Level	0 to 5 V				

Acquisition System					
Resolution	I6 bit				
Acquisition System	Scan, one sample per channel				
	V >50 mV	I ms to 20 min			
Sampling Interval	V ≤50 mV, thermocouples and PtI00 / PtI000	2 ms to 20 min			
Trigger	Date, delay, threshold, combination of thresholds (and/or), word on logic channels (and, or, slope, level)				
Pre-trigger	Variable from 0	to 100k samples			
	General				
Internal Flash Drive Size	32	GB			
Maximum File Size	2 0	GB			
Operating Temperature	0 °C to 40 °C, 80% I	RH (no condensation)			
Storage Temperature	-20 °C t	o 60 °C			
Display	10" TFT touchscreen LCD, backlit, 1024 x 600 dots				
Power Supply	I5 V / 4 A max with main adapter (100 / 240 VAC)				
Interfaces	2 x USB host, LAN (10/100 base-T with RJ45 socket)				
Battery (-BAT)	Non removable, Lithium-ion				
Typical Battery Life (-BAT)	15 hours with standby mode, 10 hours without stand-by mode				
Safety	Cat I 100 V, according to IEC61010-1				
Waight	DAS240 / 3.3 lbs (1.5 kg)				
Weight	DAS240-BAT / 4.5 lbs (2 kg)				
Dimensions (W x H x D)	2.6" x 11.7" x 6.9" (66 x 298 x 176 mm)				
Warranty	Two Years				
Supplied Accessories	Main adapter 100 / 240 V, 25 pin male connector ⁽¹⁾ and backshell, I cable (70 cm) for measurement module connection, I measurement module (20 channels) with input terminals, stylus, soft wipe, screwdriver, calibration certificate and test report				
Order Information for Optional Accessories					
902401000		nodule with 20 input I blocks			
902401050	Analog input terminal blocks 20 pack				
902408000	Rugged carrying case				
902407000	Logic channels patch cord				
902406500	4 to 20 mA	/ 50 Ω shunt			
902409000	19" rack-1	nount kit			
^(I) User configurable with solder cups					

⁽¹⁾ User configurable with solder cups

About B&K Precision

For more than 60 years, B&K Precision has provided reliable and value-priced test and measurement instruments worldwide.

Our headquarters in Yorba Linda, California houses our administrative and executive functions as well as sales and marketing, design, service, and repair. Our European customers are most familiar with B&K through our French subsidiary, Sefram. Engineers in Asia know us through our B+K Precision Taiwan operation. Our B&K Brasil office supports our expanding customer base in Brazil and other South American countries. The independent service center in Singapore services customers in Singapore, Malaysia, Vietnam, and Indonesia.

Quality Management System

B&K Precision Corporation is an ISO9001 registered company employing traceable quality management practices for all processes including product development, service, and calibration.

ISO9001:2015

Certification body NSF-ISR Certificate number 6Z241-IS8
